

Reviewing for the Final Exam

Multiple-Choice/Short Answer:

Go over the class notes for all sections. Be prepared to answer questions similar to those that were asked on tests 1, 2, and 3.

Computer Part:

Be prepared to create a Code-First application.

Be prepared to create an app similar to what you created for the App from Scratch Lab and Bootstrap Lab. This would also be similar to the “PartyInvites” application that we created in class over the course of several weeks. You will have syntax help similar to what you had for the first test.

Be prepared to add Dependency Injection to an existing app. Know how to swap between applications.
